HENRICO — Greater Richmond Fit4Kids will supply garden materials, installation guidance and instruction for an outdoor lab and learning garden at Highland Springs High School. The donation is valued at \$7,000.

The organization will be actively involved for at least one year, showing teachers how to integrate the garden into school curricula. It is the first grant the group has given to a high school. Fit4Kids' funding comes from the Anthem Blue Cross and Blue Shield Foundation, and the Highland Springs grant may become a multi-year opportunity. The school has applied for several other grants to expand the garden concept.
