

# Move of the Month Relay

## Materials:

- Items to be picked up
- Optional: cones to mark as 'starting point'

## Directions:

- 1) Divide class into teams no larger than 5.
- 2) Each group will have a specific cone color or spot as their starting point. Set items for student to retrieve a few feet away. The students should stand in a line behind the starting point.
- 3) When the teacher says the 'magic word', the students will skip, hop, march, jump, etc. to retrieve an item (task card, letter, sight word, math fact) and bring it back to their team. When the student returns, it's the next student's turn.
  - a. The students may be searching for a specific card that the teacher identifies, sorting different categories, reading words to their team.
  - b. The students could wait for the teachers 'magic word' for the next student to retrieve a card.
- 4) Continue relay until all student have collected all items or time expires.
